

Realise Your Dream

Joint Degree Ph.D in Biotechnology

Spend 6 Months in Belgium

The Doctor of Philosophy (PhD) programme in Biotechnology is a joint PhD program between Universiti Malaysia Terengganu (UMT) and Ghent University (UGent, Belgium), offered by the Institute of Marine Biotechnology (IMB), UMT. The programme aims to provide candidates with advanced and in-depth knowledge and transferable skills in biotechnology to innovate and create new knowledge to solve problems in an increasingly challenging and continually changing global bioindustry environment. Candidates should have a deep understanding of the philosophy of science and methodological designs to undertake independent research and projects in a particular branch of Biotechnology, including Animal Biotechnology, Aquaculture Biotechnology, Bioinformatics, Drug Discovery, Enzymology, Environmental Biotechnology, Industrial Biotechnology, Marine Biotechnology, Microbial Biotechnology and Plant Biotechnology. This programme would also enable candidates to pursue lifelong learning and adapt effectively, professionally and ethically as well as communicate the outcomes of the project effectively to peers and stakeholders. UMT-UGent joint PhD program in Biotechnology will allow candidates to work closely under the supervision of world-class researchers and educators, especially from UMT and UGent. Moreover, candidates will have a once-in-a-lifetime opportunity to conduct his/her PhD research in UGent for a minimum of 6-months with possible funding opportunity.

Programme Duration

Min: 4 Semesters

Max: 10 Semesters

Programme Mode

Research

Mode of Study

Full Time

Intake

Application and Admission are Open Throughout the Year

Fees

1st Semester : RM 1380.00

Following Semester : RM 1130.00

Final Semester : RM 2130.00

Programme Coordinator

Prof. Dr. Yeong Yik Sung
